

Stoquify OHADA Leadership Release Evidence Index

Date: 2026-07-11

Mode: release synthesis

Primary skill: stoquify-release-evidence-ratchet

Status: blocked

Scope

Consolidate the completed leadership-skill sequence into durable release evidence without claiming whole-product or statutory certification.

Summary

- Structural checks ready: 11/11
- Release enforcement: on
- Skill run reports: 14
- Readiness artifacts: 10
- Structural blockers: 0
- Release blockers: 6
- Readiness release blockers: 2
- Environment release blockers: 4
- Secret values printed: no

Skill Run Evidence

Skill	Report	Pre sent	Verificatio n recorded	Next step recorded
stoquify-service-boundary-ratchet	what-next/skills-life-cycle/STOQUIFY_SERVICE_BOUNDARY_RATCHET_AUDIT_2026-07-11.md	yes	yes	no

Readiness Evidence

Gate	Status	Checks	Blockers	Warnings
public-identity-abuse	ready	15/15	0	1
ledger-close-truth	ready	10/10	0	0
payment-cash-truth	ready	10/10	0	0
purchasing-ap-consolidation	ready	10/10	0	0
offline-pos-fiscal-replay	ready	10/10	0	0
statutory-country-pack-production	blocked	10/12	2	0

Gate	Status	Checks	Blockers	Warnings
report-trust-export	ready	9/9	0	0
role-based-operating-cockpit	ready	9/9	0	0
prisma-migration-deployment	blocked	7/8	2	0
ci-release	ready	11/11	0	0

Readiness Release Blockers

- blocked: readiness:statutory-country-pack-production
- blocked: readiness:prisma-migration-deployment

Release Conditions

- blocked: public_identity_hash_secret via release:secrets:preflight:release
- blocked: public_receipt_token_secret via release:secrets:preflight:release
- blocked: history_cursor_signing_secret via release:secrets:preflight:release
- blocked: production_database_target via prisma:migration:release:preflight

Verification

Check	Result

release_evidence_gate_is_wired	passed

Blockers And Residual Risk

- No structural evidence blockers.
- Release blocker: readiness:statutory-country-pack-production
- Release blocker: readiness:prisma-migration-deployment
- Release blocker: public_identity_hash_secret

- Release blocker: public_receipt_token_secret
- Release blocker: history_cursor_signing_secret
- Release blocker: production_database_target
- Residual risk: Completed skills are focused slices, not a certification of the entire codebase.
- Residual risk: Statutory country-pack readiness prevents unsupported claims; it is not legal certification.
- Residual risk: Accounting report exports remain internal until Close and Assurance certification signs them.
- Residual risk: The Daily Digest cockpit has no authenticated screenshot evidence in this run.
- Residual risk: External provider, authority, hardware, and production-load behavior require environment-specific evidence.

Next Recommended Skill

Remain on `017-aqstoqflow-enterprise-release-gate` until every release blocker is closed. Do not promote or activate from this evidence index.

Suggested Next Slice

Resolve every listed readiness and environment release blocker with real authority evidence, rerun `verify:release`, and submit the frozen evidence bundle to `017-aqstoqflow-enterprise-release-gate`.
