Workflow Assurance Scheduler Release Gate Report

Generated: 2026-09-23T20:24:25.781Z Mode: `fail` Root: `E:\ohada saas\Focused projects\stoquify`

Summary

- Enforce-mode status: `ready`
- Checks ready: 38/38
- Indexes ready: 11/11
- Engine-health gates ready: 2/2
- Blockers: 0

Check Readiness

Check	State	Mode	Owner	Action route	Blockers
ledger.posted_source_link.required	active	scheduled_scan	accountant	/dashboard/accounting/journals	None
business_event.applied_or_visible	active	scheduled_scan	operations_lead	/dashboard/manager-action-center	None
business_event.outbox.stuck_sla	active	scheduled_scan	operations_lead	/dashboard/manager-action-center	None
ledger.posted_batch_journal.required	active	scheduled_scan	accountant	/dashboard/accounting/journals	None
ledger.journal_entry.balanced	active	scheduled_scan	accountant	/dashboard/accounting/reports/trial-balance	None
compliance.final_document_hash.required	active	scheduled_scan	accountant	/dashboard/compliance	None
ledger.closed_period.posting_blocked	active	scheduled_scan	accountant	/dashboard/accounting/control-center	None
ledger.failed_posting_batch.visible	active	scheduled_scan	finance_manager	/dashboard/manager-action-center	None
pos.completed_sale_payment.required	active	scheduled_scan	branch_manager	/dashboard/pos	None
pos.completed_sale_receipt.required	active	scheduled_scan	branch_manager	/dashboard/pos	None
pos.completed_sale_stock_movement.required	active	scheduled_scan	inventory_manager	/dashboard/pos	None
pos.completed_sale_ledger_source_link.required	active	scheduled_scan	finance_manager	/dashboard/pos	None

Check	State	Mode	Owner	Action route	Blockers
pos.network_tender_idempotency_hash.required	active	scheduled_scan	finance_manager	/dashboard/pos	None
offline_pos.replay_sla.visible	active	scheduled_scan	operations_lead	/dashboard/pos	None

pos.closed_shift_cash_shortage.review	disabled	scheduled_scan	branch_manager	/dashboard/manager-action-center	None

Indexes

- ready: organization + check + definition version + source identity
- ready: organization + status + severity + detected date
- ready: organization + workflow + status
- ready: organization + owner + status + due date
- ready: organization + run status + started date
- ready: organization + source type + source id
- ready: organization + alert delivery status
- ready: organization + check + definition version + execution key
- ready: finding run + deterministic ordinal
- ready: finding run + stable fingerprint
- ready: finding organization + source type + source id

Engine Health

- ready: Control Tower exposes stale run, failed run, pending alert, and failed alert health
- ready: Scheduler policy classifies execution modes and cursor fields

Blockers

No Workflow Assurance release blockers detected by this static gate.

Safety Notes

- This gate is static and read-only. It does not run checks, mutate tenants, or enable enforce-mode.
- A check should stay observe-mode until owner, route, proof/source evidence, source hash, and tests are present.
