

Enterprise Release Blocker Status

Blocker and gate readiness evidence

BLOCKER AND GATE ASSESSMENT REPORT

Prepared 2026-08-18

Evidence-led · bilingual-ready · accessibility-aware · implementation-bounded

Connected operations. Explicit controls. Inspectable evidence.

Generated: 2026-08-18T04:50:05.973Z Status: BLOCKED Release posture:
DEVELOPMENT_CONTINUES_PILOT_AND_PRODUCTION_FAIL_CLOSED

Summary

- 1 Blockers ready: 3/12
- 1 Open blockers: 9
- 1 Evidence errors: 0
- 1 External-input checks: 1/13
- 1 External-input blockers: 102
- 1 Human interventions required: 9
- 1 Activation authorized by this gate: no
- 1 Secret values printed: no

Decisions

- 1 Ready to freeze: no
- 1 Ready to request gate 017: no
- 1 Ready for Phase 2B review: no
- 1 Ready for Phase 3 review: no

Claim semantics

- 1 Payroll immutability: ISOLATED_POSTGRESQL_RUNTIME_CONTROL_VERIFIED within ISOLATED_NON_PRODUCTION_POSTGRESQL_RUNTIME_CONTROL.
- 1 This proof does not verify the production database and does not authorize production release.
- 1 Country-pack production evidence: FAIL_CLOSED (B05-B06 remain independent).
- 1 Operator readiness evidence: FAIL_CLOSED (B07-B10 remain independent).
- 1 Overall release claim: NOT_READY; activation authorized: no.

Payroll immutability evidence provenance

- 1 Selected source: what-next/payroll/payroll-immutability-runtime-check-run-2.json
- 1 Source kind: direct_isolated_postgresql_proof
- 1 Evidence generated: 2026-08-12T19:21:43.961Z
- 1 Evidence digest: sha256:527d792bfe54368af368806fe0b1f75932acdc2f3a83104224bce9284a4ffe45
- 1 Stale conflicting aggregate invalidated: no
- 1 Precedence: Newest direct runtime evidence wins by evidence generatedAt; derived release aggregates never override their source proof.

B01-B12

B01	Ready	READY	buildStatus=passed; buildExitCode=0	Preserve and bind this evidence to the final candidate.
B02	Ready	READY	proofScope=ISOLATED_N ON_PRODUCTION_POST GRESQL_RUNTIME_CON TROL; proofSource=what- next/payroll/payroll-immuta- bility-runtime-check-run-2.j son; proofGeneratedAt=20 26-08-12T19:21:43.961Z; triggers=9/9; blockedMutations=14/14; allowedLifecycle=3/3; stale AggregateInvalidated=fals e	Preserve and bind this evidence to the final candidate.
B03	Blocked	BLOCKED_EXTERNAL_C ONFIG	preflight=8/9; history=7/8; historyTarget=local	Provision the approved production target, deploy, and pass direct history health.
B04	Blocked	BLOCKED_EXTERNAL_C ONFIG	secretChecks=5/21	Provision the three independent managed release secrets and rerun release preflight.
B05	Ready	READY	sourceHashes=7/7	Preserve and bind this evidence to the final candidate.
B06	Blocked	REQUIRES_EXPERT_RE VIEW	reviewChecks=4/12; appro valArtifactVerified=false	Return the authentic signed expert decision and separate checker verification.
B07	Blocked	BLOCKED_DEPENDENC Y	credentialStatus=BLOCKE D; credentialBlockers=31	After stable managed references exist, complete all credential dispositions and evidence.
B08	Blocked	BLOCKED_DEPENDENC Y	operationalStatus=BLOCK ED; operationalBlockers=152	Complete owner, scheduler, alert, CI, governance, and credential evidence.
B09	Blocked	WAIT_FOR_STABLE_TRE E	freezeStatus=BLOCKED; verifiedFiles=206/207; runtimeDrift=8	After B01-B08 pass, cut a clean candidate and create a new immutable freeze.
B10	Blocked	BLOCKED_DEPENDENC Y	governanceBlockers=50; freezeReady=false	Bind real product/security approvals and six accepted owner assignments to the freeze.
B11	Blocked	BLOCKED_DEPENDENC Y	phase2b=2/23; eligible=false	After B01-B10 and gate 017 GO, rerun the 23-check entry gate.
B12	Blocked	NOT_STARTED	phase3=0/34; eligible=false	After a successful pilot, obtain the artifact-bound 34-check Phase 3 decision.

Evidence errors

- 1 None

Safety boundary

- 1 This synthesizer is read-only and does not mutate source evidence.
- 1 It never infers approvals, external authority, or activation from placeholders.
- 1 A fully ready report still requires a separately authorized promotion decision.
