POS 9+ Decision Register

Version: GOV-01-2026-07-20

Status: BLOCKED — 0 of 8 decisions approved

ID	Decision	Recommended decision	Accountable approval	Principal blockers
D-01	STORE_CREDIT disposition	Disable, hide, and reject server-side now; treat an internal liability ledger as a separate governed program	Product + Payments/Accounting; CFO/Controller	HON-01, PAY-01, RET-02; G1/G6
D-02	Physical active-session boundary	Explicit physical register/terminal claim with one active terminal session and one active drawer claim enforced in DB; cashier is actor, not lock	POS Operations + Data/Platform Architecture	SEC-01, SH-01, SH-02, DEV-01; G2/G5
D-03	First electronic provider	Pilot one named provider in one country with sandbox, signed webhook/status query, reversals, statements, and kill switch	Payments + Treasury/Reconciliation + Security	PAY-02/03/04, REC-01, DEV-01, RCP-01
D-04	Offline tender/risk policy	Bounded cash-only pilot after independent G3/G4 PASS; no electronic offline without provider certification	Risk/Product + Offline Architecture + Finance	OFF-01 through OFF-06; G1/G3/G4/G5/G6/G8
D-05	Hardware/browser matrix	Certify a narrow named browser/OS/scanner/printer/drawer/terminal matrix first	POS Operations + Device QA/Support	DEV-01, A11Y-01, CERT-02
D-06	Returns/refund policy	Partial/full, supervised cross-shift, policy-bound cross-location, cash availability, provider outcome states, fiscal corrections, fresh auth, and risk-based maker-checker	Retail Ops + Controller + Payments/Risk	PAY-04, RET-01/02/03
D-07	Country/currency/fiscal/language scope	Certify one launch country first with EN/FR, approved XAF/minor units, tax/fiscal labels, rounding, and receipt-correction rules	Country Product + Controller/Tax Counsel + Localization	PAY-01, RCP-01, LOC-01; G1/G6/G7
D-08	POS 9+ SLOs	Baseline on the approved matrix, then approve percentile scan/search/render/charge/replay/recovery and availability/error budgets	Product/SRE + Frontend Performance + Support	UX-03, OPS-01, CERT-01/02, REL-01

Approval record required

Each decision remains unapproved until a record contains: chosen option, rationale, accountable approver, effective version/date, expiry or review date where relevant, evidence links, affected capabilities, and rollback or disablement policy.

Active hold

HP-1 remains active. No provider or offline implementation may begin until D-01, D-02, and D-07 plus the G1/G2/G5 design contracts are approved.
