R00 decision approval record

R00 DECISION RECORD | Revision 1.0 | 7 October 2026

Organization or project legal owner: _____

DRAFT TEMPLATE. Copy for each decision and required authority. This document ID identifies a template, not an executed approval. Leave the receipt/reference blank until the real decision is recorded.

Specify which exact artifact the signer confirms. Word and PDF are different files with different hashes; a completed or signed copy also differs from this blank template. Preserve and identify each representation separately.

Acceptance requires affirmative scoped decisions or concurrence from every applicable joint authority listed in document 03. Unresolved required dissent or a missing authority prevents acceptance; one owner signature cannot override it.

Binding field	**Complete with the final reviewed version**
Decision ID and title	D___ _____
Organization and approved scope	_____
Workbook revision and pages	_____
Exact selected decision	_____ _____
Evidence files and revisions	_____ _____
Frozen bundle or secure location	_____
Digest if recorded by custodian	_____
Limits and exclusions	_____
Conditions and responsible people	_____ _____
Due dates and review triggers	_____

Meaning of the approval

The decision approves only the identified scope/policy proposal. It does not assert that the implementation meets it. It does not authorize production deployment, real payments or statutory filing, and does not certify Cameroon or OHADA compliance. Expert conclusions remain limited to their explicit reviewed scope.

Review decision and verification

Specialist review repeat for each required reviewer

Reviewer name/role: _____ Appointment reference: _____
Qualification/scope: _____ Review date: _____
Evidence and cases reviewed: _____
Conclusion, exclusions and uncertainties: _____
_____
[ ] Supports proposal [ ] Supports subject to stated conditions [ ] Does not support
Signature/confirmation and method: _____

Authorized decision maker

Name and role: _____ Authority reference: _____
Outcome: [ ] Approve [ ] Reject [ ] Request revision
If approving: [ ] Unconditional for stated scope [ ] Conditional as listed
Reason and exact conditions: _____
_____
Signature/confirmation: _____ Method: _____
Signing date/time/time zone: _____

Custodian verification after signing

Verifier name/role: _____ Verifier authority reference: _____
Verification method: _____ Signer evidence checked: _____
Exact signed version matches reviewed bundle: [ ] Yes [ ] No [ ] Unverified
All required authorities concur and independence checked: [ ] Yes [ ] No [ ] Unverified
Received date/time/time zone: _____
Verifier signature or confirmation reference: _____
Verification date/time/time zone: _____
Record outcome: [ ] Verified [ ] Unverified [ ] Revision required
Secure signed-file location: _____
Actual receipt/reference if issued: _____

Do not backdate a confirmation or treat an image of a signature as verified identity. For paper signing, retain the original and verify the exact scan through the adopted process. A changed file, scope, authority or material condition requires a new linked decision; retain the old history. Conditional approval does not close an unresolved release gate. [S6]
