External source provenance

Retrieved/checked 2026-09-30. External pages establish publication/scope context only; no legal, tax or accounting certification is claimed.

Source	Observation and limit
OHADA AUDCIF publication	Official accounting-framework publication, useful for country-pack scope. Does not mean every member state shares payroll/tax rules or that this software complies.
Cameroon DGI 2026 Code général des impôts publication	Official page identifies an edition updated 1 January 2026. Current pack cites CGI 2025; refresh provenance and perform qualified delta review. This audit did not independently recalculate statutory rates from the full code.
CNPS employer obligations	Official search result located; direct page retrieval failed. Not used as a basis for any precise rate, deadline or legal conclusion.

Repository pack references and source-verification labels are recorded in cameroon.ts. SOURCE_CHECKED, SUPPORTED_DRAFT, PUBLISHED and independent qualified approval are distinct states.
